Professional Summary

Databricks Certified Data Engineer (Professional & Associate) with 5+ years of experience at Tata Consultancy Services (TCS), specializing in building scalable data pipelines, ETL/ELT workflows, and cloud-based data engineering solutions. Proficient in Apache Spark, PySpark, Delta Lake, Delta Live Tables, and Databricks Workflows, with hands-on knowledge of Medallion Architecture and Unity Catalog for data governance. Strong foundation in MS SQL Server, T-SQL, REST API-based data ingestion, JSON processing, and data quality frameworks. Experienced with AWS (S3, EC2), OpenShift, and Power BI for end-to-end data engineering and analytics workflows. Proven ability to design reliable, high-quality data systems that deliver accurate data to downstream consumers at scale.

Professional Experience

System Engineer (Data Engineer) (*Tata Consultancy Services*) **Pune, India** 04/2023 - present

- Designed and maintained ETL/ELT data pipelines ingesting data from external REST APIs into MS SQL Server, transforming and parsing JSON payloads before loading into structured relational tables serving downstream analytical systems.
- Built a SQL-based data quality and validation framework applying data integrity checks across production datasets, reducing data discrepancies by 25% and improving reliability for downstream data consumers.
- Engineered optimized T-SQL stored procedures, functions, and triggers to power batch data transformation workflows, reducing processing time by approximately 40%.
- Designed indexing strategies and analysed execution plans to maximize pipeline throughput and reduce data processing latency in high-volume OLTP environments.
- Collaborated with cross-functional teams to define data models and schema designs that support scalable analytical and operational data workflows.

Asst. System Engineer (Data Engineer) (*Tata Consultancy Services*) **Pune, India** 04/2022 - 03/2023

- Developed Denodo virtual data layer views to expose SQL Server datasets via a REST web service, enabling flexible data access and decoupling storage from consumption layers.
- Built a Python/PowerShell-based data ingestion pipeline to extract JSON data from a UMS interface API and batch-load it into SQL Server staging tables — automating a previously manual collection process and reducing ingestion time significantly.
- Managed deployments of data pipeline code and database objects into QA and production environments, ensuring data consistency across all environments.
- Consumed backend data APIs in React front-end applications to surface real-time operational data to end users.

Asst. System Engineer Trainee (*Tata Consultancy Services*) **Pune, India** 04/2021 - 03/2022

- Contributed to the Manufacturing Inventory Database (MIND) project, building data ingestion workflows from heterogeneous sources including SQL databases, REST APIs, Excel, and XML into a unified data layer — a foundational ETL pattern aligned with Medallion Architecture principles.
- Developed staging-to-production data loading pipelines using T-SQL cursors, triggers, and transaction management to automate multi-step batch processing workflows.
- Created scheduled SQL Agent jobs to automate recurring data refresh and processing tasks, reducing manual intervention.
- Wrote SQL queries integrating with external APIs to fetch JSON payloads and persist structured records into relational tables, enforcing data quality and referential integrity.
- Designed normalized MS SQL Server schemas (tables, constraints, clustered/non-clustered indexes) supporting application data models and analytical queries.

Education

Bachelor of Engineering, Electrical and Electronics *Birla Institute of Technology Ranchi, India* 2016–2020
CGPA: 6.6/10.0

Intermediate in Science *Jesus And Mary Academy* **Darbhanga, India** 2013–2015
Percentage: 80.4%

Skills

- **Data Engineering:** Apache Spark, PySpark, Delta Lake, Delta Live Tables, Databricks Workflows, Medallion Architecture, Unity Catalog, ETL/ELT Pipelines, Batch Processing, Data Ingestion, Data Modelling
- **Cloud & Infrastructure:** AWS (S3, EC2), Databricks Lakehouse Platform, OpenShift Container Platform, Linux
- **Database:** MS SQL Server 2019/2022, MySQL, MongoDB
- **SQL & Database Development:** T-SQL, Stored Procedures, Functions, Triggers, Views, Indexing, SQL Agent Jobs, SSMS
- **Data Quality & Governance:** Data Validation, Data Integrity, Referential Integrity, ACID Compliance, Unity Catalog
- **Data Integration:** REST APIs, JSON Processing, XML, Denodo, PowerShell, Python
- **Data Visualization:** Microsoft Power BI, Excel
- **Performance Tuning:** Query Optimization, Execution Plans, Index Management, DMVs
- **Other Technologies:** Git, HP ALM, React, Node.js, HTML5, CSS, JavaScript, TypeScript

Online Courses & Certifications

- **Databricks Certified Data Engineer Professional** (Mar. 2026) - [Databricks](#)
- **Databricks Certified Data Engineer Associate** (Oct. 2025) - [Databricks](#)
- **PL/SQL by Example - Beginner to Advanced PL/SQL** (Aug. 2022) - [Udemy](#)
- **The Complete JavaScript** (Jan. 2023) - [Udemy](#)
- **The Web Developer Bootcamp** (Aug. 2022) - [Udemy](#)
- **SQL** (Jul. 2022) - [Sololearn](#)

Projects

- **Expense Tracker** - Full-stack expense management app with REST API integration and React front-end. Technologies: React, HTML, CSS, JavaScript. - [Project Link](#)
- **FoodCart** - Demo food ordering platform consuming live REST APIs for real-time data population. Technologies: HTML, CSS, JavaScript, React, Redux. - [Project Link](#)
- **TextUtils** - Text processing and analytics tool. Technologies: HTML, CSS, JavaScript. - [Project Link](#)

Achievements

- 2020 - Finalist, CCDSAP Scholarship'20 organized by CodeChef, BIT India.
- 2019 - Winner (Football), INFINITO 2019, IIT Patna.
- 2018 - Runner-Up (Football), Spardha, IIT BHU - [Certificate](#)
- 2018 - Winner (Badminton Doubles & Mixed Doubles), PRAKRIDA, BIT Mesra - [Doubles Certificate](#), [Mixed Doubles Certificate](#)

Languages

- **English** [Proficient in Reading, Writing, Speaking]
- **Hindi** [Proficient in Reading, Writing, Speaking]
- **Maithili** [Native]
